## PROFILE

After completing my military service, I resumed my college education with a clear focus on frontend development. I successfully completed professional courses at MasterCode Academy and Matrix Academy, where I gained in-depth knowledge of modern web technologies, programming languages, and best practices in software development. Passionate about creating user-friendly, responsive, and innovative web solutions.

## WORK EXPERIENCE

### CRM

October,2024-December,2024

#### Frontend Developer

- Developed and maintained a CRM platform specifically designed for desktop use, focusing on delivering a seamless user experience for business professionals.
- Collaborated with designers and backend developers to ensure consistent alignment with project goals and functionality requirements.

### Yalli.org

August,2024 - Present

#### Frontend Developer

- Developing and optimizing a multi-device compatible platform, ensuring seamless functionality across desktop and mobile devices.
- Contributing to the creation of a global community platform aimed at uniting Azerbaijanis worldwide, promoting national values, and fostering strong connections
